/workspaces/{id} Update an item by ID

DELETE

/workspaces/{id} Delete an item by ID

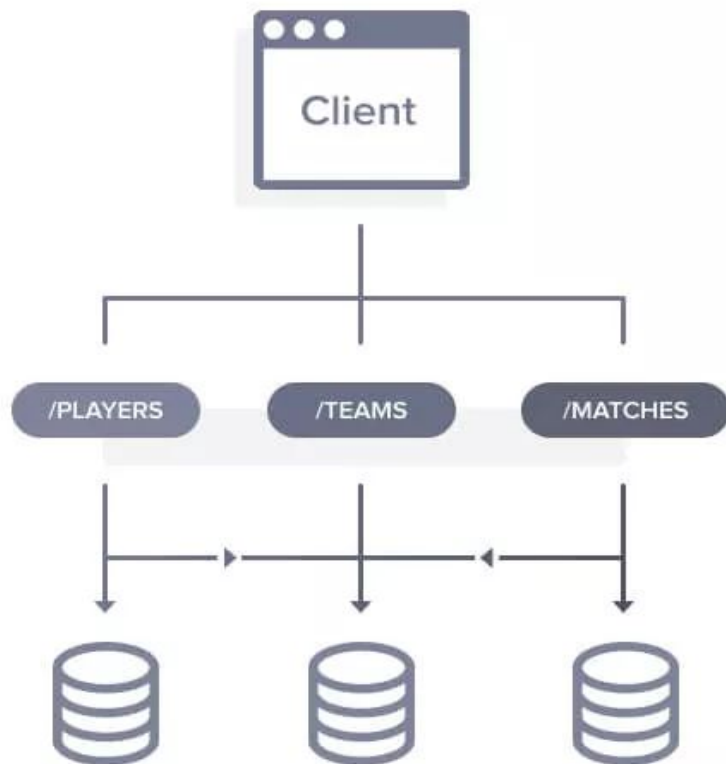

POST

/workspaces/all Lists tests by ids

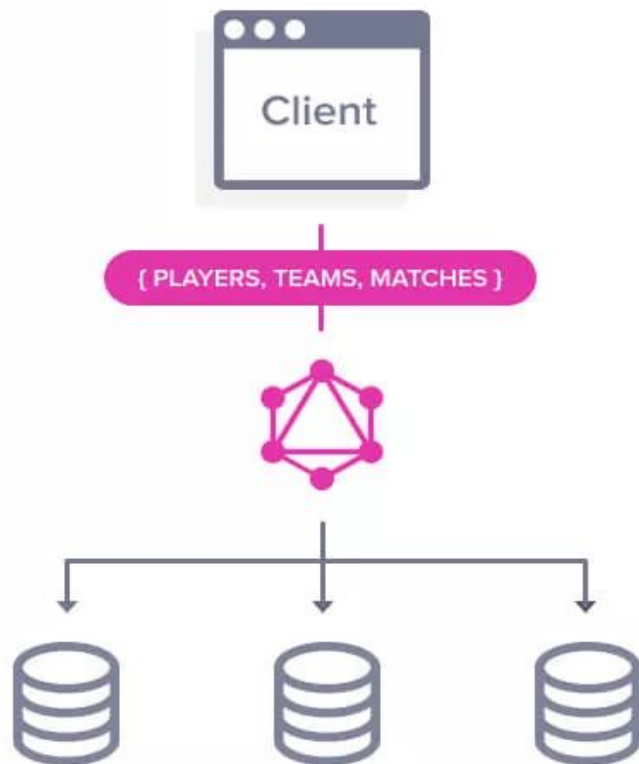

GET

/workspaces/member-of List workspaces whose logged user is a member

Rest API

GraphQL API

Schema

Resolvers

Schema

- type: Define um objeto graphQL
- input: Define um tipo de entrada GraphQL

```
type Users {  
  
  nome: String  
  
}
```

```
input CreateUser {  
  
  nome: String  
  
}
```

Scalar Types

- Int
- Float
- String
- Boolean
- ID
